Van Horn: Played a solid game at times, too many mistakes, or missed opportunities to expect to win. We must find a way to eliminate the mistakes. Attention to detail in your position is the only way to get better. Stepping with the correct foot, aligning correctly, doing what you are coached to do.

MAJOR CORRECTIONS: Tackling with correct leverage, Stance and Start, Getting lined up and getting call (offense), run game rules, run blocking technique, pass pro rules, wide receiver alignments (spacing), perimeter blocking.

Lafayette County: Lafayette County is a team that plays with a lot of energy and effort. They are not the best team we've played this year. WE ARE the best team they've played this year. Records have nothing to do with this matchup. Don't carry any pre-conceived thoughts good or bad into this matchup. They have lived on big plays all season long. If we pursuit with leverage and tackle well, we will get them stopped. Offensively, in the run game we have to be solid on our run game rules vs different fronts. We must be solid on our pass protection rules. Our WR/RBs must block on the perimeter and win 1on1 matchups vs man to man coverage. They will always rush 1 more defender than we can block. The ball must get thrown on time and WR/RBs must win the battle for the football. We are one catch and a broken tackle away from an explosive play or touchdown on every ball that is thrown. BE READY TO PLAY THIS GAME UNAFRAID OF FAILURE. PLAY WITH THE BELIEF THAT TOGETHER WE CAN ACCOMPLISH ANY GOAL. PLAY THIS GAME WITH A CHIP ON YOUR SHOULDER LIKE YOU HAVE SOMETHING TO PROVE. BECAUSE YOU DO!!
